

ARKADIP DEY

Bengaluru • 8637559018 • arkadip04@gmail.com

SUMMARY

Dedicated and motivated Master of Computer Applications (MCA) student with a strong foundation in Computer Science and Software Development with Object Oriented Programming Concept, and Full-Stack Development, Database Management, python, HTML,CSS. Proven experience in developing cybersecurity and AI-driven solutions, including IoT honeypots and chatbot applications. Passionate about leveraging technical expertise to solve complex problems and contribute to innovative software projects.

EDUCATION

Masters in Computer Applications (MCA)

M.S. Ramaiah University of Applied Sciences, Bengaluru

2025 – 2027 (Expected)

Bachelors in Computer Applications (BCA)

Techno Main Salt Lake, Kolkata | CGPA: 7.11

2022 – 2025

Relevant Subject: Data Structure & Algorithms , Operating System, Computer Networks, C programming , Object Oriented Programming(OOP), Cyber Security , AIML , Java, python

HIGHER SECONDARY (HS) | Kantali High School (H.S) | (Standard Marks : 84%)

2020 – 2022

PROJECTS

Smart City Management System

- Developed a Smart City Management application using Java, Oracle 10g, HTML, CSS, and JavaScript.
- Implemented Waste Management, City Facilities, and Tourist Guide modules.
- Collaborated on project planning, development, testing, and deployment.

AI-Powered Chatbot Application

- Developed an AI chatbot using React/Node.js chatbot integrated with Google Gemini API.
- Developed MongoDB-based chat history management and user authentication.
- Implemented avatar uploads, dynamic chat UI, and independent chat history scrolling.
- Deployed the application on Render with production-ready configuration.

Home Rental Management System

- Developed a full-stack property rental platform using React.js and Node.js.
- Built REST APIs and integrated SQL database for property and booking management.
- Designed responsive user interfaces and optimized application performance.

Healthcare IoT Deception Honeypot

- Developed a containerized IoT healthcare honeypot using Ubuntu, Docker, and Python.
- Integrated ELK Stack, Prometheus, and Grafana to visualize and monitor simulated attack data in real time.
- Built an IoC intelligence parser and SOC-style Flask dashboard for threat analysis.
- Conducted automated attack simulations to evaluate system security.

WORK EXPERIENCE

Cyber Security Intern | Infotact Solutions

Feb 2026 – May 2026

- Designed and deployed secure system architectures, applying industry-standard hardening procedures to enhance organizational security posture.
- Proactively identified and patched security vulnerabilities in infrastructure and code using tools like OWASP ZAP and Burp Suite.
- Analyzed system logs, alerts, and network traffic to detect and respond to potential security threats.
- Participated in security code reviews, threat modeling, and weekly security audits to ensure adherence to compliance standards.

TECHNICAL SKILLS

- **Programming:** Java, Python, C, HTML, CSS
- **Frameworks:** React.js, Node.js, Spring Boot, Bootstrap
- **Databases:** SQL, MongoDB, MySQL, ORACLE
- **Concepts:** Data Structures & Algorithms (DSA), Database Management, Cybersecurity
- **Tools & Platforms:** GitHub, VS Code, NetBeans, Oracle 10g, MySQL, Eclipse, Vmware
- **soft skills:** Problem-solving, Teamwork, Communication, Attention to Detail

CERTIFICATIONS

- Cyber Security Training | Infotact Solutions & intel Academy (2026)
Comprehensive professional training; fulfilled all project requirements.
- Certificate ID: 6bc7cccd672c.
- Career Essentials in Generative AI | Microsoft & LinkedIn Learning (2026)
Specialized in Microsoft Copilot, Generative AI, and Responsible AI.
- Cyber Security Job Simulation | Deloitte & Forage (2025)
Executed practical, industry-standard cybersecurity tasks via simulation.
- What Is Generative AI? | LinkedIn Learning (2026)
Foundational course on AI tools and implementation.
